

Opening the IBM/Informix 4GL Development Perspective

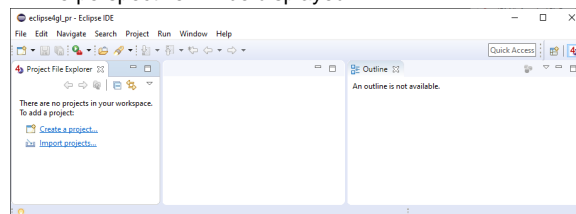

To display the Informix 4GL Development perspective in Eclipse after installing the plug-in:

1. In the **Eclipse IDE** go to **Window > Open Perspective > Other...**
2. In the **Open Perspective** dialog window, select **IBM/Informix 4GL Development**.

3. Click **Open**.

4. The perspective will be displayed.

To close the perspective:

- right-click on the perspective tab and
- select **Close** from the context menu
